

# NFL Office Pool Rules

## Entry Fee

Each participant must pay \$5.00 per week or if they choose \$85.00 for the entire season.

## Where Does the Money Go?

The money will be divided as follows:

- 80% of the money collected from the players participating that week will go to the weekly winner.
- The remaining 20% of the weekly player's money will go to the season pool.

## Point Spread

The "Winners" of each game will be determined by applying the point spread to the score. Each week a pick sheet will be distributed that will indicate the point spreads for each game for the upcoming week.

Example:

| Favorite   | Point Spread | Underdog |
|------------|--------------|----------|
| Pittsburgh | 14.5         | Seattle  |

This means that the odd makers believe that Pittsburgh will not only win, but will win by about 14-15 points. So when making your pick you must decide if you think that Pittsburgh will do just that or not.

If you choose Pittsburgh you will earn a point if Pittsburgh wins over Seattle *by 15 points or more*. If you choose Seattle you earn a point if Seattle wins *OR* if Seattle loses by 14 points or less.

There will be **No** ties since the spread will always be between 2 numbers (i.e. the .5).

## Monday Night Tie Breaker

The tie breaker is used to break ties in total points scored to determine the standings. The person with the most points at the end of a particular week automatically wins. In the event of a tie, the Monday Night tie breaker will be used to determine the winner of the week. A participant who's tie breaker pick is closest to the tie breaker result (whether above or below) will be placed ahead of other participants that they are tied with.

## Weekly Selections

The Website can be located at <http://www.zbestofficepools.com>

All picksheets **must** be returned by **8:00 PM THURSDAY**.

If the participant's picks are not received for the week, the defaults (**All Underdogs**) will be assigned to the participant.

## Statistics/Standings

Each week participants can review the results of all games played as well as current/season standings via the web site.

## Year End Prize Fund Payout

The Season Pool prize fund will be divided between the top 3 winners.

1st Place = 60%    2nd Place = 25%    3rd Place = 15%    Last Place = \$25.00
